# Leo

August 22

The symbol for Leo is the lion, the king of the jungle. Like all rulers, Leos are very **dignified**. They do not do silly or cheap things. They always look very important. They are also very **proud** of themselves; they believe very strongly in their own ability and in everything they do. Some people would say they are **vain**—too proud. They are well aware of their personal worth and have a great deal of respect for themselves. Because of this, other people often think they are **egotistical**, thinking only of themselves. The fact is, Leos do care about people. Sometimes they think this gives them the right to be **domineering** – telling other people what to do, dominating them – and Leos find it difficult to take orders from others. They may hurt people’s feelings because they are **honest**, and tell people the truth even if it hurts.

Leos are **materialistic** people, loving beautiful clothes, jewelry, cars, and houses. They are willing to work hard to acquire these things. but they are not **cautious** with money. They often spend more than they should. Fortunately, they are always able to find ways of paying for the things they want.

**CAREER:** The leadership abilities of Leos may take them into fields such as law, politics, business, and the military services.

**LOVE:** Leos are loyal and loving even though they tend to be **bossy**, insisting on making most of the decisions. They should avoid Arians, who may be **overpowering** and dominate them. A good partner would be a Virgo, who admires strength in others.
